Entered in the Postoffice at Charleroi Pa., as Second Class Matter

"Come over into Europe and help us," was the cry of the allied nations to America before we entered the great world war.

We kept out as long as we could—with honor and safety; kept out longer than we should—it may be. And the cry continued insistently:

"Come over and help us."

At last—after our national rights had been repeatedly violated, after our property had been ruthlessly destroyed, after our people had been brutally murdered, after indignities had been scornfully put upon us—when we saw and realized that vicilization of the world was at stake, that our security was threatened, that our safety was endangered—we went in and we went in to win. We entered the war in no half-hearted manner; we put our all at the disposal of the cause we had adopted—our men, our means, our money; we risked our eternal national welfare for the sake of the wide world and ourselves.

"Come over and help us."

And we paid our own way, and we made good.

Through our charitable organizations and instrumentalities, we gave the suffering allied peoples millions of dollars. To help finance the deplorable situation we lent the allied nations billions of dollars. We stinted not—on manhood or money. We poured out our dollars in a golden stream; we poured out our blood like water. And we paid well for everything we received from the allied peoples; for arms, and ammunition; for transportation; for every pig stye in which our boys found shelter; for every wisp of straw upon which they slept; for every fagot they burned.

'Come over and help us.."

And we went.

And we finished the job.

We rescued the allied cause from promised defeat; we saved the world while we saved ourselves.

And now—what?

Allied statesmen are standing up in their parliaments and more than suggesting that the immense debts they owe us should be cancelled by us—forgotten, and forgiven by us. And more. The following dispatch comes from Washington: "Sir Ernest E. Raeburn, representing the government of Great Britian will arrive in Washington within a few days to effect a settlement of British claims against the War Department, amounting approximately to $25,000,000."

For what is this British claim of $25,000,000?

For transporting overseas the American lads who saved Britain from everlasting deftat, ruin and disgrace. The British house was in flames. "Come over and help us put out the fire," they pleaded. We consented. They sent their flivvers after us. And now we must pay for the joy ride we had.

"Come over and help us."

—Marion Star.

American hens are beginning to lay and cackle cheerfully, just as if they were in no desperate need of a they were in no desperate netd of a prohibitive tariff on those millions of eggs being imported from China.

FORDSON

For thirty-five years Henry Ford, a farmer's boy, has been working on the problem of a successful tractor for the farm, and for the past fourteen years has devoted much time and a vast amount of money to the development of the Fordson tractor. Today, that Tractor is in use on nearly 200,000 farms and if you have any doubt as to the satisfaction it gives to those who are using it, call in and get the booklet, just issued by the Ford Motor Company, and called "The Fordson at Work" and read the testimony which is there given by the multitude of owners of Fordson Tractors. No evidence can be more conclusive than that of the man who actually knows by personal experience and this is the line of testimony carried in this little booklet. There is no cost for this booklet. If you cannot call for it, write, drop us a postal, and we will mail it to you without charge. It is so valuable you ought to have it because it is the open door through which the farmer will pass from the hard working drudge to the comparative comfort of the manufacturer. The Fordson makes it possible for the farmer to plan and direct, while the machine will do the work. It presents the widest latitude for the farmer to exercise his brain power and plan how he can get the most from the soil, knowing that the Tractor will do the hard work, do it better, do it quicker, and therefore do it more profitably. This means not alone in the cultivation of the soil, in the harvesting of the crops, but in a hundred and one different demands that are made for labor, cutting of ensilage and the filling of the silo; cutting of wood, operation of the washing machine; in the lighting of the house with electricity; supplying the house with running water; bringing to the farmer's wife and daughters the conveniences of the city, relieving them of much of the hard, unpleasant part of housework.

Announcement

To the Public:

We have made arrangements with the management of the Palace Theatre, McKean Ave., Charleroi, Pa., for a two day showing of the celebrated International Correspondence Schools five reel Feature Film "Heads Win," Thursday and Friday, March 10 and 11.

More than two million persons have witnessed this stirring photoplay. Critics pronounce it the greatest educational picture ever produced. The newspapers wherever it has been shown acclaim it the Wonder Industrial of the age.

Produced by the Universal Film Company.

No educator, student, employer, professional man or wage earner should miss this opportunity to see it. See Baby Ivy Ward, Roy Adams, Eve Gordon, James O'Neil and James Costello in this Great Human Interest Story. Don't miss it. Bring a friend or a neighbor and enjoy such an evening as comes only a few times in a lifetime.

The Palace Theatre will have their regular show in addition to this Special Feature.

Remember the dates, March 10th and 11th, next Thursday and Friday.

International Correspondence Schools

By John E. Buchanan.

Prohibition Commissioner Kramer predicts that less than 12,000,000 gallons of liquor will be consumed in this country in 1921. That looks like a plenty until it is added that over 2,000,000,000 gallons were consumed in 1917.

STATE JUDGE BARS WOMEN AS JURORS

Judge Koch, of Philadelphia, in a commonwealth case, ruled that women were not subject or eligible to jury duty under the nineteenth amendment to the constitution, in the state of Pennsylvania, and ordered two women withdrawn from the jury. The question was raised by an attorney, who said that under the Pennsylvania law and under the present jury law, only male voters are eligible to jury duty.

THIRD WEEK COMMON PLEAS COURT OPENED

The third week of common pleas court opened at Washington on Monday, with a new panel of jurors present. Some local cases may come before court this week.

Where the Sea Sand Sings.

"Singing sands" are found in Hawaii. By clapping the sand between the hands a faint hooting noise is produced. But the sounds are greatly intensified by putting a quantity in a bag and slamming it about.

Don't Be a Quitter.

It's the way a man sticks to a thing that marks him as a success or failure. Many a fellow has won out at the eleventh hour just because he would not let go. Don't be a quitter.

Dangerous Liquids.

Gasoline, ether and benzine could not be kept on shelves in a cabinet in the house, the national board of fire underwriters says in a recent article. It is exceedingly dangerous, as either gasoline or benzine gives off at ordinary temperature inflammable vapor. Through these vapors, a light at a distance may ignite the liquid. If there is a small leak in the container in which any of the liquids are kept, sufficient vapor may form to cause a violent explosion. With ether the danger is even greater than with gasoline or benzine.

Bert Hilliard met with a very painful accident yesterday at the government boat yard, North Charleroi, when the drill he was using went through his arm.

Mrs. Walter Pangburn met with a very painful accident Saturday afternoon at her home, North Charleroi. While scrubbing, she fell, spraining the ligament in her ankle.

PRICE OF SUGAR AND POTATOES HIGHER

A proposed bill now before the legislature would place a revenue tax of approximately two cents a pound on sugar. In anticipation of this bill becoming a law, many local concerns have already advanced sugar to 10c and 12c, with a probability of having 15c sugar in the near future.

Potatoes are quoted 50c-60c per peck in the city now, with demand heavy. Since many men are idle, due to industrial conditions, they are beginning to flock to the country to seek employment on the farms. In view of this fact, the farmers are contemplating farming more extensively this coming year than for some years past. Potatoes, as well as corn and wheat are in heavy demand, especially the variety for seeding.

"The period of laboriously striving to forget the war will pass presently, no doubt, in life and literature." But hardly so soon in politics.

The bigger the pile of money the faster it grows. John D. Rockefeller has given away nearly half a billion and still remains a billionaire.

Messrs. Ralph and William Heaton have returned to their home in Butler after visiting several days with Mr. and Mrs. Edgar Cocain of Lock No. 4.

ACHES AND PAINS—SLOAN'S GETS 'EM!

Famous pain and ache Liniment. Kept handy, brings warming, gratifying relief

RHEUMATIC twinges ease up soon. So do stiff joints, lame back, neuralgia, overtaxed muscles, and those pains from weather exposure, too—they don't fight long against the counter-irritation that Sloan's Liniment produces.

Always keep this old family friend ready for instant use—a little *penetrates without rubbing*, leaving no skin stains, mess, or clogged pores. Its very odor—healthy and stimulating—suggests the good it will do.

All druggists. Three sizes—35c, 70c, $1.40. Largest size is most economical.

Sloan's Liniment Pain's enemy

The Digestive Tablet That's Swallowed Whole

A new, quick-acting digestive tablet. No bothersome dissolving in hot water—you *swallow* Dill's Digesters whole and get immediate relief. Ask for Dill's, at drug stores—25c.

No need to dissolve Dill's Digesters

THE CHARLEROI MAIL

VOLUME XXI—No. 232. CHARLEROI, WASHINGTON COUNTY, PENNSYLVANIA TUESDAY, MARCH, 8, 1921. 2 CENTS.

WORK OF ENROLLING VOTERS WILL SOON BE UNDER WAY

Registration of All Women Voters will Be a Part of Task

WILL BEGIN MONBAY, MAY 2

The county commissioners are preparing for the annual registration and enrollment of voters for the primaries and election this year. The primaries will be held on Tuesday, September 20th, and the election on Tuesday, November 8th.

The assessors and registry assessors of the different voting districts will begin the registration and enrollment of electors on the first Monday in May, which will be the second day of the month. They will visit every home in their districts and obtain the name, address and occupation of every person resident therein over the age of 21 years.

The electors will be required to tell the assessor, as well, their choice of political parties, as without such designation no voter will be permitted to cast a party ballot at the primaries in September. The work of registration will be unusually heavy this year, as the names of all women eligible to vote will be added to the list.

The office of the county commissioners is a very busy place just now, as the tax duplicates for the use of the county treasurer and school and road districts are being prepared from the assessments for the year 1921. This task is always a big one, and requires the utmost care and attention on the part of those having it in charge. This year the work is more than doubled by reason of the addition of the names of female electors and the assessing of them with an occupation tax.

It is very important to the taxpayer that every step in connection with handling of property and occupation assessments should be done correctly and experience and proficiency are required from those who thus look after the interests of the county and the individual citizen as well. The granting of the franchise to the women has greatly increased the duties of the county commissioners in the matter of handling registration, assessments, primaries and elections and has brought added responsibilities to their office. The work in connection with every department of the public welfare is heavier than ever before and calls for closest application and attention on the part of the officials and employes.

APPLICATIONS REFUSED IN ARMSTRONG COUNTY

The four applications for liquor licenses in Armstrong county were refused on Monday in license court, on the grounds that some of the men who had been granted license last year abused their privileges by selling liquor containing over one-half of one per cent of alcohol. The decision was handed down by Judge J. W. King. Last year seven applications were granted.

WILL HOLD HEARINGS TO ABANDON STATIONS

An interesting series of cases has been listed for a hearing before the Public Service Commission at Pittsburgh next week, when the Pennsylvania railroad will ask the right to abandon four non-agency stations. These stations include Peters Creek, Woods Run and Black Diamond on the Monongahela Division, and West Side on the Southwest branch. The company wishes to abandon these stations in the interest of economy.

SMALLPOX CASES ARE FOUND IN WIRETON

Small pox has made its appearance in Wireton, and the Monessen Board of Health, at a special meeting held Monday evening, took steps to protect the town against the spread of the disease. Four cases of small pox have been found at Wireton, two of them at house 37, on Compton avenue. As this community is in Rostraver township, James B. White, township health officer, was notified, who immediately notified the State Health Department, asking for a complete health survey of the community and the establishment of guards.

Dr. J. M. Trimble, county medical officer, visited the place on Monday and confirmed the diagnosis of local physicians, after which quarantine regulations were put into force.

VIEWERS TO HOLD ANOTHER MEETING

The viewers appointed by the courts of Westmoreland and Fayette counties to report on the advisability of relocating and rebuilding the bridge over Speers run at the lower end of Belle Vernon, met on the grounds last Wednesday, but after a short session adjourned the hearing until March 18, at 10 a. m., in the city hall at Belle Vernon. At that time the parties interested highway conditions on the east side of the river will be present and give testimony with reference to the proposed change.

If the report of the viewers is favorable, it will greatly expedite matters in the way of advancing the building of the improved highway between Montssen and Belle Vernon. The new location suggested for the bridge would take a bad turn out of the highway and make it better for travel. There appears to be practically no opposition to the proposed change.

The Ladies Auxiliary of the Charleroi-Monessen hospital will meet Wednesday afternoon in the Borough Building. All members are urged to be present. Business of importance. 232t1*

Read the Classified Ads.

Further Plans Considered For White Way Lighting

The five members of the Street Lighting Committee, consisting of W. H. Milliken, chairman; R. L. Barnhart, Michael Rosenbloom, D. G. Callihan and George Leith, met last evening to consider furth plans for the White Way Lighting. Mr. Barnhart submitted a drawing of a very artistic post and light, which will be displayed in Hennings' drug storre. It will be well for the general public who are interested to make observation of this diagram, and to make further suggestions to the members of this committte. The committee will hold its next meeting at the Elks' Club next Monday noon, at which time the entire matter of finance will be discussed and then a canvass made of all the business places on the streets where the White Way is to be located.

The Committee on Borough Expansion will meet this evening in the Chamber of Commerce rooms at 8 o'clock. This committee consists of Hugh E. Fergus, chairman, Tom P. Sloan, Chas. Speers, Frank Riva and Theo. J. Allen.

A committee of women of the Chamber of Commerce will meet on Wednesday evening at eight o'clock, in the Municipal building. The members of this committee are: Miss Minnie B. Richardsan, Mrs. J. D. Berryman, Mrs. Louis Collins, Mrs. E. H. Greenlee, Mrs. C. J. Mogan, Mrs. Pauline Pfleghardt, Mrs. R. H. Rush, Mrs. V. P. Stewart and Mrs. C. C. Wright.

OLD MINES ARE SLOWLY PASSING

One by one the old coal works in this section of the valley are being worked out and closed up. Last year the Henderson mine at East Charleroi was finally worked out, the tipple torn down and the tramway removed. Now the old Cleveland mine, located a short distance above Belle Vernon, has been abandoned for good the tipple torn down and shipped away.

The mine was known as the Bluebird in later years, when it was operated by the Belle Vernon Coke company, which purchased the plant from the J. H. Somers Fuel company. All of the available coal had been removed before the plant was finally abandoned. Richard Pike, superintendent of the plant, has been transferred to another point.

CAMBRIA COUNTY TURNS DOWN LICENSE APPLICANTS

All applications for liquor licenses in Cambria county including 170 for retail, six for wholesale and four for brewers licenses were refused at the session of license court at Johnstown on Monday. The decision was handed down by Judge John E. Evans, recently elected to fill the place left vacant by the death of Judge Francis J. O'Connor. Judge Evans said the state laws relative to the granting of licenses were modified by the eighteenth amendment and the Volstead act, which made the sale of liquors of more than one-half of one per cent alcohol unlawful. Judge Stephens, sitting with Judge Evans, said he did not concur with the latter, and would file his opinion later.

A little of the other way around comes hard for the Germans who boasted that they would require an indemnity of five hundred billion gold marks from their defeated enemies.

REPAIRS AT DAM WELL UNDER WAY

With a falling river and present favorable weather conditions, it is believed that the break in the dam at Lock No. 6 can be temporarily repaired so as to guard against any further damage. It is expected these repairs will be made by this evening.

The Carnegie Steel company has spared no effort on their part to aid the government officials in making these temporary repairs, steamboats and empty barges being placed at their disposal for carrying supplies to be used at the break in the dam. A barge was loaded with lumber and other necessary mataerial at the government boat yard Monday, and was taken to No. 6 by the steamer Swan.

FORMER STEAMBOATMAN DIES IN BROWNSVILLE

Captain Enoch Daugherty, aged 77 years, died at the home of his daughter, Mrs. Priscilla Ailison, South Brownsville Friday afternoon last. Capt. Daugherty was engaged in steamboating for 47 years, his first assignment being as a stoker on the steamer Franklin in 1859. He steamboated on the Mississippi and Missouri, and for many years was on the packet lines on the Monongahela.

MONDAY WARMEST MARCH SEVENTH SINCE 1876.

Monday was the warmest March 7 since 1876, according to records of the weather bureau. Forty-five years ago the mercury reached 71 degrees Monday it jumped to 70 and stayed there for several hours in the afternoon. Tomorrow it will be cooler according to forecast.

SEVERE PENALTIES IMPOSED ON CONSPIRATORS BY COURT

TO USE NEW BUILDING FOR COMMENCEMENT

The auditorium of the new Donora high school building will be ready for use in June next, and it is proposed that the graduating class of the Donora schools hold their exercises there this spring. The new building is rapidly approaching completion, and Donora citizens are very proud of the structure, which contains some innovations in school buildings that are entirely new in structures of this kind.

RUSSIANS HELD TO ANSWER IN COURT

A hearing was held before Alderman Elwood in Monongahela on Monday evening, which caused considerable interest in that city, as well as Ellsworth.

Five Russians, all living in Ellsworth, were arrested on charges of felonious assault and battery and carrying concealed weapons. It was charged in the indictment that on the 27th of February the five defendants, following an argument with Daniel Leseposs, who served nineteen months overseas in the world war, and Sam Mishinkoss, who served twenty months and who was wounded three times, beat up the two men in a brutal manner.

News of this assault came to members of the American Legion at Duquesne, which immediately notified the Department of Justice, and Fred Ames and an assistant went to Ellsworth on Monday and arrested the accused.

After hearing the evidence offered, the Alderman held all of the accused in $2,000 bail for their appearance at court and in default thereof they will be taken to jail. The five men are said to be members of a Bolshevik band which has its headquarters at the upper end of the Pigeon creek valley.

LIQUOR MEN ARE ASKING FOR LICENSES

Applications for hotel, brewery and distillery licenses in Fayette county have practically ceased, there being only eight filed for the coming year as compared with 51 for 1920. There are no distillery license applications this year, the list being made up of four hotel and four brewery applicants. Hearings on the applications have been set for the first Monday in April, but they may not be held. The standing of the Brooks law is somewhat in doubt, and in the meantime the legislature may take some action by which it would be repealed.

In Westmoreland county liquor dealers appear to have more faith in the future, as there are 134 applications for liquor licenses. Of this number fourteen are for brewers' license and 120 for retailers' license. Monessen has twelve applications for retail license.

Heavy Fines as Well as Jail Sentences are Given to Defendants

PROPOSED PAROLE IS OPPOSED

Harry J. Lyons of Pittsburgh, and John Budamer of Herminie, convicted last week in the Washington county criminal court of conspiracy and false pretense were called for judgment on Monday and were sentenced. In the conspiracy charge they were each sentenced to pay the costs, a fine of $500 and to undergo imprisonment in the county jail for a period of six months. On the false pretense charge they were each sentenced to pay the costs, pay a fine of $500 each, make a restitution of the $2,000 which they by false pretense obtained from Anton Morich, and that each undergo imprisonment in the county jail for six months. These sentences are to date from March 1.

A condition attached to the sentence is that upon full payment of the costs and fines imposed, and full restitution of the money taken with interest thereon from the date it was taken, to wit: January 27, 1920, to the date of payment, the court will then entertain a motion for parole, the parole to be for a period of three years.

District Attorney Erwin Cummins opposed the granting of any parole, taking the position that this was a case where men had conspired together to defraud and cheat one ignorant and easily imposed on, that these defendants, he said, were "land sharks," and were in a criminal business. Counsel for the defendants, however, stated the facts surrounding the case were not so "melodramatic" as the district attorney would lead the court to believe.

District Attorney Cummins referred to similar dealings, such as figured in this case, which were carried on by the defendants in Ohio. He also alleged that they had used $2,000 of the money secured in this county in settling a case in which they were involved in Texas. He also charged them with being connected with a land deal case at Canonsburg, in which bogus checks were floated in that community. He insisted that these defendants should be punished, that the sentence imposed could be put in such shape that a judgment could be obtained to secure restitution of the money taktn, as one of the defendants had property.

Judge McIlvaine in passing sentence said that the court ought to administer the law in such a way as to get the money back that was alleged to have been unlawfully taken, and the case handled in such a way as to keep a hand on these defendants, so that they would be under the eye of the court. The wrong these men did, the court said, was in selling something they did not own.

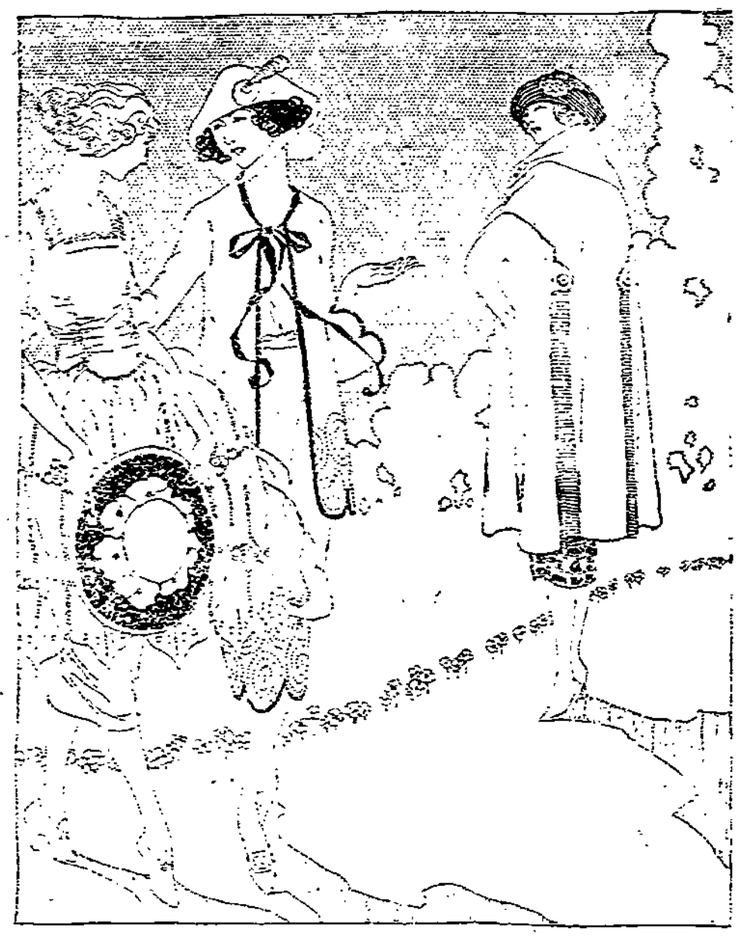
NEW EASTER FROCKS



Spring Frocks Refreshingly Individual

After winter the crispness of a new Taffeta Frock, the soft rippling folds of a Canton Crepe, or the verve of a Slavic embroidered cloth model, inspire feminine interest in Frocks in general. Styles are widely divergent, varying from the Spanish silhoutte of snug bodice and voluminous skirts to the graceful slim lines of long waisted moyen age styles. The Directoire influence is being felt also. There is great use of grey, copenhager, red and rust tones on navy, and the effect in both embroidery and appliques is strikingly effective.

Solar Energy in Plants.

The estimate is made that the amount of solar energy stored in plants each year is 22 times the amount of energy represented by the coal consumed in the same period. About 67 per cent of this plant energy is taken up by the forests; 24 per cent by cultivated plants; 7 per cent by grass of the steppes and prairies, and 2 per cent by the plants of desert lands. The energy received by forests alone is 14 times the energy of the coal used. But unfortunately the forests that receive this energy are mainly in the tropics. In temperate regions we are depleting the forests just as we are exhausting the coal supply; further justifying the prophecy that centers of manufacture, and therefore presumably of civilization itself, will ultimately shift back toward the equator.—Dr. Henry Smith Williams, in Hearst's Magazine.

Work.

If the busy rich people watched and rebuked the idle rich people, all would be right among them; and if the busy poor people watched and rebuked the idle poor people, all would be right among them. But each looks for the fault of the other. A hard working man of property is particularly offended by an idle beggar; and an orderly but poor workman is naturally intolerant of the licentious luxury of the rich. And what is severe judgment in the minds of the just men of either class becomes fierce enmity in the unjust—but among the unjust only. None but the dissolute among the poor look upon the rich as their natural enemies or desire to pillage their houses and divide their property. None but the dissolute among the rich speak in opprobrious terms of the vices and follies of the poor.—John Ruskin.

Stroll With Morgan Gave Credit.

An acquaintance once approached the first J. P. Morgan and asked for a loan of $10,000. Morgan knew the man was responsible, but for private reasons did not want to make the loan himself. He did, however, say he would secure the money for him, relates Collier's. Putting on his hat and coat, he asked the man to go with him. They started at Broad and Wall streets, walked through Wall to Broadway, and back to Broad. Morgan did not stop anywhere, nor ask anyone to lend his companion $10,000. At the door of his office Morgan shook hands with the man and bade him good-day. "But," objected the applicant, "you didn't get me the $10,000." "Oh, yes, I did," said Morgan. "Anybody down there," waving toward Wall street, "will let you have it now."

It Is Woman, Lovely Woman.

One of the shocks that come to men when they are past twenty-one is the realization that women's greatest interest is woman. No matter how white the spats nor how shiny the topper a man may take to the races, do they attract the feminine eye? The answer is in the negative. The feminine eye is searching for more important things. It is noting frocks and the wearing thereof. If an enterprising publisher started a men's magazine, would he publish portraits of men? He might intersperse a few horses on his pages—but the remaining space would have to be given to women. But does a woman's magazine return the compliment? Obviously not.—London Daily Express.

Hogmanay.

Hogmanay, Hogmena or Hagmena means holy month. December is so-called because our Lord was born on the 25th thereof. The word is derived from the Saxon "Halig manath," holy month. New Year's eve is called "Hogmonay night" or "Hogg-night," and it is still customary in parts of Scotland for persons to go from door to door on that night, asking in rude rhymes for cakes or money. King Haco of Norway fixed the feast of Yole on Christmas day, the eve of which used to be called hogg-night, but the Scots were taught by the French to transfer the feast of Yole to the feast of Noel and hogg-night has ever since been the last of December.

Questions about the groundhog as a weather prognosticator arise with each recurring February 2. The marmot family, to which the groundhog belongs, lies dormant in winter, hibernating much like the bear and the bat. At the approach of cold weather in the fall they curl up asleep at the bottom of their deep burrows. About the time of the usual midwinter thaw the groundhog comes out. By a peculiar instinct he is able to foretell the weather several weeks ahead. When his sagacity tells him that an early break-up is at hand he stays out. When a storm period threatens he pops into his hole again and goes to sleep, not reappearing for weeks.

Caesar's Words.

Julius Caesar is credited with the saying, which means, "I came, I saw, I conquered," in connection with his victories in Pontus, a kingdom of Asia Minor, B. C. 47. The historian Suetonius states that the words were displayed before Caesar's title in his public triumph, to indicate the rapidity with which the campaign was concluded. Plutarch, in his life of Caesar, says the latter, in the account he gave one of his Roman friends of his victory over Pharnaces at Zela in Pontus, used the three words as a concise summary of the expedition.

Really Indian Invention.

Arabic figures were invented not by the Arabs but by the Indians.

BRINGS SUIT FOR HEAVY DAMAGES

The importance of municipalities looking well after the sidewalks within their borders is well emphasized in a suit brought by John Weaver and Etta B. Weaver, his wife, against the borough of Washington, for $15,000 damages. Mrs. Weaver seeks $10,000, while Mr. Weaver asks for $5,000 to reimburse him for monies paid out by him on account of his wife's injuries.

Mrs. Weaver, while walking along the streets of Washington, one night last March, tripped and fell over a stone in the pavement which was about three inches higher than the surrounding pavement. The night was dark and rainy, and she was unable to see the obstruction. As a result, she claims to have received severe injuries.

The borough is charged with negligence in allowing this alleged dangerous condition to exist in the sidewalk without having a warning light.

FACTORY STARTS AND CLOSES DOWN AGAIN

The tank of the American Window Glass company at Belle Vernon started up last week, but the quality of the glass was so unsatisfactory that it closed down again until changes were made. Blowing was resumed later, but the quality of the glass did not improve. The management regards the trouble as only temporary and expects to have things in good shape before long.

STUDENTS ASSISTING IN INCOME TAX RETURNS

Since the department of the Internal Revenue Agent from Monessen, commercial students of the high school of that city have announced they will assist all residents of that vicinity in making out their income tax returns, if they will only come to the school building, during school hours.

HEARING ON DAYLIGHT SAVING BILL TODAY

The Edwards daylight saving bill was sent to the Committee on Retrenchment and Reform for a hearing at Harrisburg this afternoon.

STEEL CORPORATION ELIMINATES 7-DAY WEEK

Judge Elbert Gary, chairman of the United States Steel Corporation, said on Monday that the seven-day week and long turn in changing shifts had been eliminated and that though the eight hour day proposed in the plants of the big corporation had not yet been wholly and satisfactorily settled the final investigation into it would soon be settled.

Guy Woodward and M. T. Crowley, are in Pittsburgh today attending the automobile show at Motor Square Garden.

ANXIOUS FOR VALLEY BASE BALL LEAGUE

Ralph Davis, sporting editor of the Pittsburgh Press, is anxious for a base ball league in the valley during the coming season. Already plans are being formed in Monongahela to organize a team, while Roscoe is considering a like position. It is also likely that Charleroi will have a team the coming season, but whether connected with any league is another question.

Russian noblemen are working as the commonest laborers, but they may have the consolation of better health—provided they get enough to eat.

ITCH

Money back without question if HUNT'S Salve fails in the treatment of ITCH, ECZEMA, RINGWORM, TETTER or other itching skin diseases. Try a 75 cent box at our risk.

HENNINGS' DRUG STORE

Lace Tree.

The lace-bark tree provides the women of Jamaica with ready-made lace, from which caps, bonnets, and nets are made. The inner bark of the tree is soaked in water and divided into separate layers. Each layer is stretched and spread in the sunshine. The application of water bleaches the lace. A tree that flourishes in the South Sea islands produces fruit which, as a food, resembles very closely a newly baked loaf. On account of this it is known as the bread tree.

Soap Mentioned in Bible.

The word soap is to be found in the Bible, in Jeremiah, Chap. II., verse 22, which reads: "For though thou wash thee with nitre, and take thee much soap, yet thine iniquity is marked before me, saith the Lord God." The word will be found in one other passage, namely, in Malachi, Chap. III., verse 2: "But who may abide the day of his coming? and who shall stand when he appeareth? for he is like a refiner's fire, and like fuller's soap."

To Remove Grit From Eye.

Small foreign bodies which are not imbedded in the eyeball may often be removed by going into a dark room, looking up toward the lighting fixture, then turning the light on quickly, writes a correspondent. If the light is strong enough, it will cause a violent reaction which will cause the particle to be washed to the corner of the eye. It is then easily removed by means of a clean handkerchief.

The United States Wearing Away.

An average of 95 tons of soil, pebbles, and rock is carried by the rivers into the ocean every year from every square mile of the United States, according to the United States geological survey, department of the interior. The immensity of this contribution may be better comprehended when it is realized that the surface of the United States covers 3,0SS,500 square miles.

At Long Range.

A gossip is never willing to repeat unkind remarks to your face. We recently heard one when accused of this try to justify herself by saying: "Gossip, madam, is a social attack conducted on the approved principles of modern warfare—you are not supposed to see the person at whom you are shooting."—Boston Transcript.

COLD IN THE HEAD RELIEVED AT ONCE

Turpo Checks a Cold in the Head at Once, Prevents it Developing Into a More Serious Cold, Relieves Congestion and Inflammation

The right way to treat a cold is to check it at the very beginning. Apply Turpo as soon as it appears as a cold in the head, with the typical running nose, dull headache and sneezing. Turpo is known as the Turpentine Ointment, because turpentine forms one of its principal ingredients. In addition to distilled turpentine there are two other very well known remedies in Turpo—Camphor and Menthol. The three are so combined in a mineral base, as to give best effects for the relief of all colds and congestion.

When Turpo is placed up the nostrils you inhale it immediately, and actually feel it clearing up the secretion in the air passages, and reducing the swelling and congestion. In this way Turpo checks a fresh cold at the very root of the trouble.

For severe colds Turpo is rubbed on the throat and chest. It sinks right through the skin, carrying the remedy to the seat of the inflammation or congestion, and relieving the cold overnight. Turpo is a splendid counter-irritant—it reduces inflammation and congestion without blistering. It is much better than poultices and plasters for this purpose, and as it has antiseptic properties, it not only relieves the condition, but removes the cause of the trouble. Turpo will not blister the skin or stain the clothing—it is absolutely non-poisonous—a small portion of it swallowed relieves sore throat. It is invaluable for catarrhal conditions, and as an antiseptic balm for cuts and wounds.

Mothers with small children, who have once used Turpo, find that it enables them to check the children's colds immediately, and protect the little ones against the serious troubles which develop from neglected colds. Turpo is a true home remedy. Doctors realize its value and recommend it. Ask your doctor about it. It is sold by all druggists in 30¢ and 60¢ jars. Be sure you buy Turpo and not an imitation. Turpo comes in white opal jars with the orange and black label. Your money will be cheerfully refunded if you are not entirely satisfied.

TURPO

For every Cold and Congestion
